

StingBox API Documentation

11/2/2020

API Endpoint URL:

- https://stingbox.twocyber.com/threat2/api/stingbox_api.php

Finding and using your API Key:

- API Key is available on your account settings page from the [StingBox Dashboard](#)
- The Key can be reset by clicking the "Reset API Key" button.
- Pass the API Key in the URL of your call to the API.
https://stingbox.twocyber.com/threat2/api/stingbox_api.php?api_key=yourapikeygoeshere

API Usage

- Pass the API Url post parameters with the action you'd like to use encoded as json variable `api_data`. E,g, `api_data={"action":"getStingBoxDetails"}`
- Pass your api key as url parameter `api_key`
- The API will return JSON data in response.
